

VDC-EMS06 Series

Electro-Magnetic Overhead Door Closer

Hold Open Mode

Linked to the buildings Fire Detection system, Hold Open Mode can be used to safely and legally hold open doors throughout a building to aid flow of traffic and provide barrier free access, but upon detection of a fire, releases the door automatically allowing it to close and prevent the spread of flames and smoke.

Swing Free Mode

The Swing Free Electromagnetic Closer allows the door to operate as if no closer was fitted by providing virtually no opening resistance. Linked to the buildings Fire Detection system, the door can be positioned at any angle by the user but shuts automatically upon first detection of a fire – preventing the spread of flames and smoke.

PRODUCT FEATURES

- **Power size:** Fixed power size 6
- **Body material:** Aluminium
- **Arm set type / material:** Scissor / Steel
- **Functions:** Electro hold open or swing free, closing, latching speed
- **Maximum door weight:** 120kgs (door mount pull), 80kgs (door mount push)
- **Maximum door width:** 1400mm (door mount pull), 1100mm (door mount push)
- **Required power supply:** 24Vdc
- **Performance Testing:** Successfully tested in accordance with the requirements of BS EN 1155: 1997

Classification: Door mount pull side (Fig 1)

3	8	6	1	1	3
---	---	---	---	---	---

Classification: Door mount push side (Fig 6)

3	8	4	1	1	3
---	---	---	---	---	---

FIRE TESTING

- Successfully fire tested in accordance with the requirements of BS EN1634-1, suitable for use on 30, 60, 90 and 120 minute timber fire doors

CERTIFICATION

- CE marked (Certificate AE7864)

GUARANTEE

- 2-year guarantee

COVER OPTIONS

- Square

FINISHES

- Silver (SE)
- Satin Stainless Steel (SSS)

SWITCH BOX FINISH

- Silver as standard
- Black optional

* Other finishes available on request
